A Life Imagined

EMBRACING PHILANTHROPY

A RECIPE FOR SUCCESS

HOPE ROCKS

Imagine Change...

Looking for a creative and effective way to foster a sense of commitment, purpose and pride among employees, students, or staff? Are you striving to improve employee retention, work place productivity or relationships? Do you also have a passion for making a difference in the world?

As the signature program for Hope Rocks, **A Life Imagined** is an invitation for participants to become 'change makers'. We launch into the process by defining their personal, school, or corporate vision, identify issues they care about, select a cause and define a plan of action to make a difference, locally or globally. With a sense of compassion and commitment, we explore a glimpse into the realm of possibilities, transforming their ordinary environment into the extraordinary.

Having the opportunity to engage in philanthropy, no matter how large or small, can unleash an individuals' sense of purpose and empowerment, spilling over into all areas of their life - personal, academic, and career.

Change Makers in the Making

Kim Holl

Facilitator & Social Artist

As a storyteller, social entrepreneur and compassionate communicator, Kim has devoted much of her life to transformational education and adventure learning. She has presented at conferences and facilitated innovative workshops and speaking circles throughout the Pacific Northwest that focus on youth advocacy, community engagement & wellness, peace building, restorative practices, and using philanthropy to inspire social change.
