Inspiring Young Minds

NAVIGATING VALUES, DREAMS, ASPIRATIONS & BARRIERS TO LIVING A BIG LIFE.

HOPE ROCKS

Imagine Change...

How do we encourage young people to move from apathy to action? How do we inspire them to believe in their capabilities? How do we create the environment where they can begin to dream of possibilities?

Through inspirational short films, storytelling, deep conversations, and fun activities, young people have an opportunity to reflect upon their personal path and values, challenge their perceptions, explore their dreams and aspirations, and examine the potential barriers to living a BIG life.

Tapping into their innate sense of wonder and creativity, they explore a glimpse into the realm of possibilities that each of their journeys hold.

Inspiring Young Minds unleashes the participants sense of discovery, courage and commitment to explore a life imagined.

Imagine - Dream - Do

Kim Holl

Facilitator & Social Artist

As a storyteller, social entrepreneur and compassionate communicator, Kim has devoted much of her life to transformational education and adventure learning. She has presented at conferences and facilitated innovative workshops and speaking circles throughout the Pacific Northwest that focus on youth advocacy, community engagement & wellness, peace building, restorative practices, and using philanthropy to inspire social change.
